Status of Claims

1. Claims 37-39 have been examined.

Response to Amendments/Arguments

2. Applicant's arguments with respect to claims 37-39 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 37-39 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gifford, U.S. Patent No. 5,724,424 in view of Aucsmith et al. U.S. Patent No. 5,712,914.

5. Claims 37-39 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by.

As per claims 37-39, Gifford teaches a settlement system comprising:

- a service provision device accepting access from an information terminal (figures 1 and 2)
- the service provision device accepting a choice of specific goods (figure 3) and accepting as payment an ID number (figure 4; column 6, lines 19-30)
- displaying the ID number on the information terminal (figures 4 and 10)
- settling payment (i.e. using as payment the ID number) at a settlement terminal device (figures 6 and 12; column 6, lines 3-48; column 7, lines 50-55)
- a user sending the ID number to a settlement authentication device for authentication (figure 12; column/line 8/25-9/37) and the settlement terminal sending the ID number to the settlement authentication device for authentication (column 7, lines 56-59)
- transmitting the results to the service provision device and providing goods to the user (column/line 6/50-7/10; column 7, lines 56-59)

Gifford discloses providing a user with multiple payment options (figure 4).

However, Gifford does not specifically recite "online slips". Aucsmith et al. teach

paying for goods and services using an online slip (figure 13; column 3, lines 15-30; column/line 11/60-12/11; column 13, lines 25-48) wherein said slip includes an ID number (figure 9; column/line 11/60-12/11). Therefore, it would have been obvious to one of ordinary skill to combine the teachings of Gifford and Aucsmith et al. in order to accommodate users paying for goods and services using the certificates (i.e. online slips) disclosed by Aucsmith et al.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will

Art Unit: 3621

the statutory period for reply expire later than SIX MONTHS from the date of this final action.
